

# Door Closer Range Accessories

The following accessories are suitable for use with the ASSA ABLOY DC range.

## L190 Standard Link Arm

Standard link arm for use with DC200.

## L191 Hold Open Link Arm

Hold open link arm for use with DC200, adjustable position up to 150°. Hold open mode can be enable and disable as required. Not to be used on fire doors.

## G193 Guide Rail Arm

For use with CAM Motion surface closer. Surface slide arm with visible fixing screws.

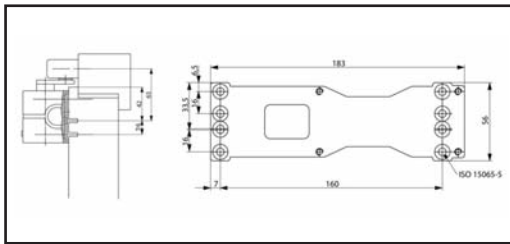

## G892 Small Concealed Guide Rail Arm

Small concealed guide rail for use with DC860 closer; cannot be used with A152 hold open device.

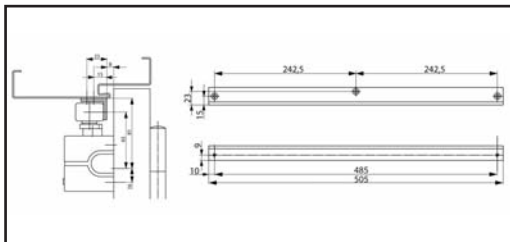

## G893 Standard Concealed Guide Rail Arm

Concealed guide rail for use with DC860 closer; will take A152 to enable hold open function.

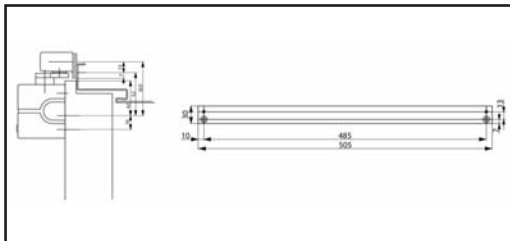

### A120 Mounting Plate

For use with DC200 and DC500/700 where additional fixing points are required to improve durability or overcome fixing position issues.

### A104 Angle Bracket

Angle bracket for use with G193 guide rail to aid installation where required.

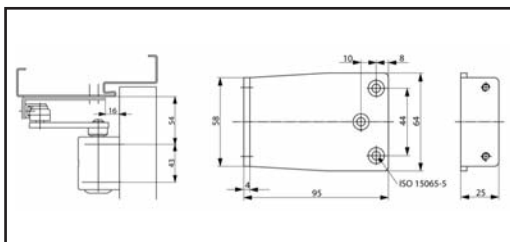

### A130 Guide Rail Mounting Plate

For use with the G193 Guide Rail Arm where the application restricts fixing points. Actual fixing position into door/frame is moved by 13mm to that of the Guide Rail Arm.

### A152 Mechanical Hold Open Device for Guide Rail

A hold open device that is fitted inside the G193 surface guide rail or G893 concealed guide rail.

### A154 Parallel Arm Bracket

Used to enable a 'figure 66' installation where the closer is mounted to the door in an open out application.
