

8360, 8460 & 8461

Ramp Jaw Strikes

The Adams Rite 8360, 8460 & 8461 Ramp Jaw Strikes are designed to work in conjunction with the 900 Series Mortice Exit Devices and the 4700 Series Deadlatches.

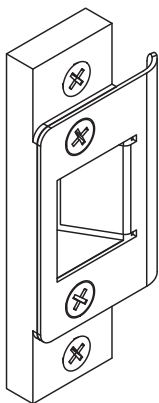

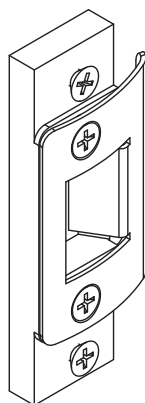

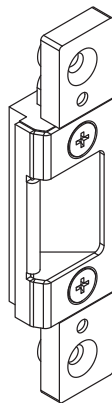

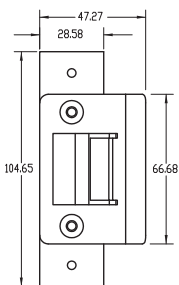

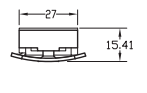

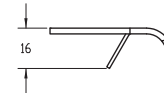

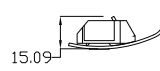

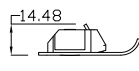

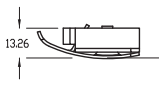

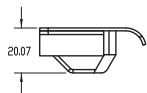

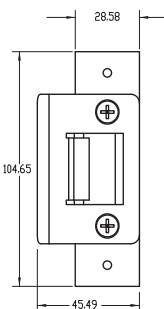

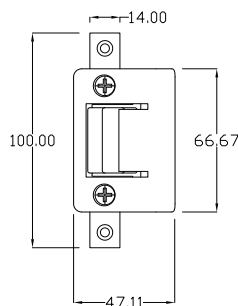

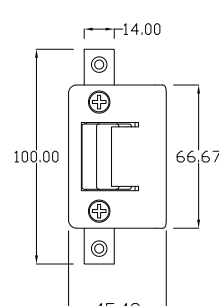

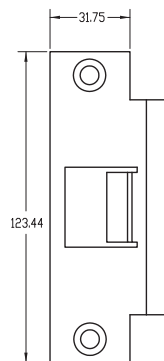

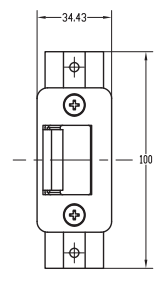

Key Benefits

- Offers a range of flat lip extensions to cater for a variety of jamb widths, also radius and thermally broken sections.
- 8460 range suits 940 range.
- 8360 suits 930 and 4720/4920.
- E8461 has reduced jaw opening to suit 4700 series latch.
- Suitable for use on aluminium and timber doors.
- Ramp jaw leads out latchbolt reducing wear on mechanism and gives compliance with EN 1125/179 where required.
- Slim version to aid installation into thermally broken doors.
