

Codelock

Mechanical Access Control for Aluminium Doors

The codelock is a mechanical access control keypad for Aluminium doors and is an alternative to electronic keypads, electric strikes, magnetic locks and other systems used on aluminium doors.

Key Benefits

- Code free version available.
- Suitable for use on aluminium doors.
- The Codelock is designed to be fitted with the Adams Rite range of mortice round cylinder deadlatches and is ideal for new or retrofit applications.
- The codelock can be fitted as an external entry trim with the 930/940 Panic Exit Device conforming to BS EN 1125:2008 or the 4591 Paddle handle Emergency Exit Device package conforming to BS EN 179:2008.

Related Hardware

4510 Heavy Duty Deadlatch ~ 4591 Paddle Handle ~ 930 Series Mortice Exit Device ~ 940 Series Mortice Exit Device

Aluminium Faceplates ~ 8460/8461 Strike Plates (essential for BS EN 179 or BS EN 1125 compliance)

Specifications

Provides access control in the following ways:
