

930/940 Series Panic Exit Hardware

Product Revision

4900 Series Deadlatch

The 930/940 Series Exit Device with either the 28.6mm or 38.1mm backset sizes are now supplied complete with the 4900 Series Deadlatch.

- The 4920 will be supplied as standard with the 930 Series Exit Device for timber and steel applications.
- The 4910 will be supplied as standard with the 940 Series Exit Device for aluminum applications.

This new generation of Adams Rite latch incorporates the following innovative features as standard:

- New "Easy-Change" reversible latchbolt
- Latchbolt projection 15.3mm
- Latchbolt width increased to 16mm
- Holdback deactivation feature.
- Unique tab system allows flat faceplate to suit left and right handed beveled sections.
- Redesigned auxiliary bolt.
- Adjustable tube spacer fixings included as standard. Easily removable if not required.
- Will fit existing section preparation for all 4700 Series Deadlatches.

Note: Installations requiring 24.6mm backset will continue to be supplied with the standard 4710 Deadlatch.
